Our appraisals include:

- ✓ Interviews with home or business occupants to gain an understanding of security concerns, past security related issues, and daily activities.
- ✓ Perimeter site survey including examination of site boundaries, perimeter fencing, landscaping, security lighting, and signage.
- ✓ Interior home survey, including living areas, sleeping areas, and storage areas.
- ✓ Review physical security devices, doors, windows, safes, and lock hardware.
- ✓ Review of safe rooms and other systems used to protect against home invasions.
- ✓ Review security systems, including intrusion alarm, panic alarm systems, video surveillance, and security intercom.
- ✓ Identification of likely security risks and potential threats.
- ✓ Review of security incidents.
- ✓ Review of the security guard or patrol services.
- ✓ Preparation of Home or Business Security Assessment Report.

Appraisal provides overall security evaluation, identifies security concerns, and specific security recommendations.

Report categories:

1. Urgent attention problems that should be corrected immediately;
2. Introduced measures to greatly improve security at the home or business;
3. Optional security enhancements.

Target harden your home or business by increasing natural surveillance, enhancing difficulty to forcibly enter and deterring criminals looking for opportunity.
